Los Angeles Herald.
CITY AND COUNTY OFFICIAL PAPER.
FRIDAY, MARCH 19, 1875.

THE Democratic State Central Committee is not dead, as reported. It has even vitality enough left to call a meeting to be held in San Francisco on the 25th instant.

CHRISTIANCY, the new Michigan Senator, is one of those extremely liberal and fair-minded men that one meets but once in a life-time. He is willing that everybody should act on a non-partizan basis so long as they act on the side to which he belongs.

THE school text-book epizootic has broken out in Missouri. The people have revolted against the repeated changes that are imposed upon them. The latest phase of the disease is the introduction of a bill into the Legislature providing that books once introduced shall not be changed within a period of five years.

A Farce.
The result of the investigation of San Francisco's school business is such as might have been expected—the injury of those least to blame and in the complete exoneration of each individual member of the Board of Directors. It was in evidence that teachers had purchased their positions; that they were assured they could not obtain employment except by purchase; that the brokers who sold these positions as teachers were the janitor of one of the public schools and the hotel waiter; that after the money or approved notes were in their possession, they in no instance failed to redeem their promise, and that they really controlled the places they sold. But the singular part of the whole transaction is, that this broker-janitor and his head assistant, the hotel waiter, were doing business solely on their own account, without the knowledge or consent of a single member of the Board. The Investigating Committee found these facts and reported them. They went even further, and recommended the immediate discharge of those teachers—five women and two men—who had purchased their positions. The suggestions were acted upon and the unfortunate teachers who had purchased places that they were assured they could only obtain by purchase, were promptly and energetically thrown out of employment. This sort of "investigation" and verdict may be satisfactory to the Board; under the circumstances it is probably the best that could be had. But it had a bad aspect—a suspicious, guilty look—and we doubt if the sober, thinking public will accept it as all right. It seems so strange that these applicants for positions as teachers could not find favor in the eyes of the Board until they employed the services of the water-broker, and that they should succeed so easily and so soon after they did employ him. Yet the Investigating Committee found that the Board knew nothing of the transaction and the poor teachers were discharged.

Facts That Will Not Down.
A friend suggests that an article which appeared in the HERALD a few mornings since entitled "Whither are we Drifting," was somewhat partisan in character, and preferred charges against the Administration which cannot be sustained by the facts. We demur to the charge of partisanship. We maintain an independent position, not only on all political issues but also in our treatment of political parties. We do not consider it partisan to strike at wrong and strike it strongly and determinedly. The views of others on the subject may be different, and with them we have no disposition to quarrel. Though we gave as the text of our article, an extract from the correspondence of the New York Herald, it is well known to every newspaper reader that the correspondent is not the only authority for the statement that repeated attempts were made to burn the Navy Department buildings, nor is he alone in giving publicity to the report that the incendiary attempts were made by persons who sought to destroy evidences of fraud to the extent of many millions in the disposal of vessels and other Government property. The authorship of this report cannot be fastened on the New York Herald. It was common talk at Washington. This much on the part of authenticity. Now as to the innuendo that the President's indifference and supineness—his total want of effort at bringing the "parties high in power" who sought to burn up Government property to justice—to a certain extent sustains the theory that he too would not regret the destruction of that "evidence." Why has he taken no steps toward preventing the threatened destruction of Government property? Why have not the would-be incendiaries been ferreted out and captured? Has the President laid the matter before Congress? Has he done anything whatever in the premises? 'Tis a grave charge, this of asserting that parties high in authority have made three distinct attempts to burn up the navy buildings and thereby obliterate the evidence that one hundred and fifty million dollars have been stolen from the people. The President should do something about it. There is widespread alarm growing up from the knowledge that after all these long

years of struggling beneath the heavy load of taxation, we cannot reduce to the amount of one dollar the heavy debt checked against us. The people are becoming fearful that unless a change is made, and that speedily, the aspect of our governmental affairs will grow rapidly worse. There is a lack of economical management at Washington. The Administration might reduce its expenses. There might be a pruning out and cutting off. There might be radical changes for the better. If pointing out these errors and suggesting remedies is an evidence of partisanship, then let the evidence go on record. We will stand by the people and strike at wrong, no matter when or where found.

Another Wrong.
Anything to get the best of the people seems to be the motto of those who lobby bills through Congress nowadays. The last trick played upon the unsuspecting and always confiding public through their Representatives in Congress, is the passage of a bill doubling the postage on transient mail matter. It does not effect publishers. The postage on the HERALD, sent to a regular subscriber, is the same now as heretofore, but if we or any one else send a copy of the DAILY HERALD to a friend, it must bear a two-cent stamp or the Postmaster will throw it into the waste-basket, in place of depositing it in the mail-bag. People will do well to bear in mind that any transient newspaper, which means a newspaper not regularly mailed from the publication office, if as large as the DAILY HERALD must be prepaid to the amount of two cents. The WEEKLY HERALD and the HERALD pamphlet, both of which under the old law required but one cent postage each, now require two cents. This contemptible trick on the people was lobbied through Congress by certain impecunious express companies in the East, who found that their heavy charges on packages were forcing everything admissible through the mails. While pretending to ask only for an increase of the rates on packages and merchandise, they have doubled the postage on transient newspapers and magazines.

School Law.
For general information we give a few extracts from the California School Law:
SECTION 1830. The Board of Trustees of any district may, when in their judgment it is deemed advisable, call an election and submit to the electors of the district the question whether a tax shall be raised to furnish additional school facilities for the district, or for building one or more school-houses, or for any two or all of these purposes.
SEC. 1833. The Trustees must appoint three judges to conduct the election, and it must be held in all respects, as nearly as practicable, in conformity with the general election law.
SEC. 1834. At each election the ballots must be given five words, "Yes," or "Tax—No," and also the name of one person as Assessor and one as Collector, and the same person may be elected to both offices.
SEC. 1840. The Trustees, upon receiving the assessment roll from the Assessor, must give five days notice thereof and sit for at least three days as a Board of Equalization, etc.

The Recent Earthquake—Town Destroyed and Many Lives Lost.
NEW YORK, March 16th.—A letter from Guadalajara gives an account of an earthquake, which, on the 11th of February, shook a large portion of Northern Mexico. The little town of San Cristobal was almost entirely destroyed, and seventy dead bodies have been taken from the ruins. The center of the earthquake appears to be in the volcano of Ceboruco. The earthquake occurred at night, and the terror of the people was increased by the darkness.

Severe Storm in Mississippi.
CORINTH, Miss., March 15th.—A severe rain and hail storm passed over this section last night. Four persons were killed, and several dangerously, and many slightly wounded. The waters are fast subsiding.

Congressional News.
WASHINGTON, March 16th.—The Senate took up the Hawaiian reciprocity treaty. It was debated by Morrill, who opposed its ratification. Mitchell and Kelly, of Oregon, spoke in favor of it. Mitchell spoke for an hour, and a courier, showing the advantages of the treaty to the Pacific coast, and its advantages in assisting the United States in acquiring the control of the Islands, to the exclusion of the British.

Dispatches from the Susquehanna valley, Pennsylvania, from New York, report great damage from floods and the formation of dangerous ice gorges.

More Taxation.
CHARLESTON, S. C., March 17th.—A great excitement was created in the Legislature to-day by the Governor's veto of the bill authorizing the payment of certain claims against the State. He says he cannot add a dollar to the weight of taxation that oppresses the people. The great majority of claims cover vast frauds, and he don't consider them valid obligations of the State. A long and angry debate followed. It is believed that the Conservative and Reform Republicans can sustain the veto.

Delano to the Front.
WASHINGTON, March 17th.—Secretary Delano has taken steps to bring a delegation of Sioux to Washington to negotiate for extinguishing their rights to the Black Hills. But little confidence is to be placed in stories of miners generally. They are considered to be a movement of interested parties, who hope to reap a harvest in outfitting people.

St. Patrick's Day.
CHICAGO, March 17th.—Dispatches from towns throughout the West report the general observance of St. Patrick's Day.

From the Black Hills.
YANKTON, Dakota, March 17th.—It is stated by the Herald of this place, on the authority of Delegate Armstrong, that the treaty with the Sioux, setting apart the Black Hills for their reservation, was never ratified by Congress. The best authority says it will not stand if tested. The excitement is increasing here about the gold fields.

Utah News.
SALT LAKE CITY, March 16th.—Two extensive snow slides occurred in Little Cottonwood Cañon to-day, rendering it impassable. The telegraph lines were demolished. The snow is now melting in the valleys, but accumulating in the mountains.

Notice was received here this afternoon of the removal of Judge McKenn.

No Continuance Allowed.
MERCED, March 15th.—Grantee was brought into Court this morning. His counsel asked a continuance until 11 o'clock. The request was granted. On reassembling the prisoner pleaded not guilty. Counsel then moved for a continuance for the term. The motion was refused and the trial set for April 7th.

From San Francisco.
SAN FRANCISCO, March 27th.—The St. Patrick's celebration, yesterday passed off pleasantly and successfully. The military and civic associations attended mass in the morning. The procession then marched through the principal streets to Union Hall, where the literary and musical exercises took place. These were followed in the evening by a number of parties and social gatherings.

The Emmet Guard of Virginia and the Summer Guard of this city have made arrangements for a shooting contest to take place on Saturday next, between teams of fifteen each from each company, the distance to be 200 yards.

An outdoor revival meeting was held yesterday on California street by Rev. Hammond. The crowd blocked the street for a while, until the passage of St. Patrick's procession stamped the congregation.

Last night a fire was discovered in the molding department of the Golden State Iron Works, on First street, between Market and Mission. It gained considerable headway before being put out. The fire department succeeded in confining the flames to the buildings in which they broke out. The works are owned by Palmer & Knox. The loss is \$2,000; fully insured.

IN MEMORIAM.
Resolutions Passed by Azusa Grange.
WHEREAS, It has pleased the Great Master above to remove from our fraternal circle below to a higher and happier circle above our beloved brother, W. W. Maxey, Worthy Master, who died at the city of Los Angeles March 3d, 1875; thus a link broken in our Grange.
Resolved, That in the death of Brother W. W. Maxey, W. M., Azusa Grange, No. 94, P. M., has lost a true Patron and a firm friend.
Resolved, That we extend to the bereaved family our sincere sympathy in this their great affliction, and as a token of respect, that the members of Azusa Grange, No. 94, wear the usual badge of mourning for thirty days.
Resolved, That a copy of these resolutions be taken to the family of the deceased, the Los Angeles HERALD and Pacific Rural Press.

J. C. PRESTON, Sec. Com.
March 13, 1875.

Mr. Beecher's sermon last Sunday on humility and meekness was one of the finest efforts of his life. Bright eyes grew dim, hard hearts were softened, and little children looked like little seraphs during its delivery. The human soul has a patent combination lock, and no one so well as the Plymouth pastor understands how to open it.—Brooklyn Argus.

NEW TO-DAY.
A Great Revolution in Cigars and Tobacco.
The Revenue Tax has been raised on Cigars and Tobacco, making considerable difference in the price of those articles, but thanks to the enormous stock we have just purchased, we are able to supply our numerous customers at the old prices and cheaper than any one on this coast. The finest assortment of cigars and tobacco ever brought to this city. We make it our special business to satisfy all, and can defy all competition, as we buy all our goods from the first market, and forget the "identicals."

AN ORDINANCE
Requiring the Closing of Saloons and Similar Places of Business in the City of Los Angeles at Certain Hours of Each Day.
THE MAYOR AND COMMON COUNCIL of the City of Los Angeles do ordain as follows:
SECTION 1. It shall be unlawful for any proprietor, owner, keeper, clerk or bartender of any saloon, or other place of business, to keep open, permanently or temporarily, or any saloon, bar or other place of business within the limits of the City of Los Angeles, where intoxicating liquors of any kind are sold at retail, to open or keep open such saloon, bar or other place of business at any time between the hours of twelve o'clock, midnight, and five o'clock A. M., of that day, or to sell, give away or otherwise dispose of any intoxicating liquors of any kind, to any other person between the hours aforesaid, except for medicinal purposes.
SEC. 2. Any person violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be fined in a sum not more than five dollars nor more than twenty-five dollars, or be imprisoned in the County Jail for any time not less than two days nor more than ten days, or be punished by both fine and imprisonment.
SEC. 3. The Clerk of the Common Council shall cause this ordinance to be published once in English in the Los Angeles HERALD and once in Spanish in La Cronica, and thereafter it shall take effect and be in force.
Approved this 17th day of March, 1875.
M. KREMER, Clerk of Com. Council.

The Orizaba sailed yesterday at 2 p. m. with 105 passengers and a large amount of freight.

Mr. Lanfranco contemplates the erection of a business block on the corner of Spring and Court streets soon.

The saloons are to be closed at 12 o'clock midnight hereafter. An ordinance published this morning makes the action of the Council a law.

We learn that parties in San Francisco have made an offer to purchase all the crude petroleum furnished in the San Fernando district.

The bark Vidette, Capt. Boyd, arrived yesterday, nine days from Port Madison. She brings railroad material.

Now that the Texas Pacific Railroad bill has gone over till next Winter, San Diego is consoling herself with the thought that there will be a new treaty with Belgium.

The Express is in a quandary not knowing whether to reject advertisements or reading matter. Let us have good reliable advertisements, neighbors.

Los Angeles Council No. 11, Royal Arch Masons, will meet next Monday evening. Business of importance will be transacted and it is desired that all members attend.

An Eastern correspondent asks how many lawyers there are in Los Angeles. We refer the problem to some member of the High School, who is well up in mathematics and knows how to calculate the mysterious value of X.

In taking elevations for the proposed extension of the main sewer, Mr. Hansen made the somewhat astounding discovery that the Agricultural Park is 32 feet lower than the bed of the Los Angeles river at the Southern boundary of the city.

Sam Prager did come back yesterday just as we predicted, and he made our word good by bringing one of the most gorgeous stocks of fine goods ever landed in this city. It was Sam's friends that made the Kalamora so long coming down on her last trip.

W. H. Prager, who bored the oil well on the Temple claim, was in the city yesterday, and appeared elated over his success. He deserves great credit for his perseverance, and we congratulate him on the magnificent results he has achieved.

McFadden & Bro., of Santa Ana, have shipped by teams direct, about sixty thousand pounds of bacon, lard, etc., to Panamint during the last week, all of which was contracted at paying rates. Every part of the country between the beneficial effects of these meats.

The Chronicle of the 16th inst.: "E. T. Tarbox, the ostensible proprietor of the Los Angeles Distillery, and Lucien Curtis, have been arrested on a charge of violating the revenue laws. They have been admitted to \$10,000 bail each. A preliminary examination was waived, and their cases will be submitted to the next U. S. Grand Jury."

The attention of our readers is directed to the advertisement of Messrs. Dillon & Kenaly, which appears this morning. These gentlemen have rented the store formerly occupied by Samuel Prager, on Los Angeles street, and propose to open in it next week the only exclusive dry-goods establishment in the city. Both members of the firm come to our city well recommended, and we have no doubt that the highest consideration of our business men and the Los Angeles public generally.

Fisher & Thatcher the jewelers, have taken twenty thousand dollars stock in the Los Angeles and Independence Railroad. They give as a reason for this large outlay that they will get their money back in one year in the reduction on the price of the bullion they work up in their jewelry factory. To those who visit their establishment and see the immense quantity of chains, rings and pins they will not seem unreasonable. They have a number of cunning artificers who do as fine work as can be turned out in the United States.

Excursion tickets to Artesia are now issued by the Los Angeles Immigration and Land Co-operative Association, and a free conveyance for visitors from Norwalk to Artesia and return is provided on Mondays, Wednesdays and Fridays. The new school house at Artesia is rapidly approaching completion. The Artesian well is flowing nicely and another is sunk by the company. Several of the purchasers of property are also boring for water, as well as building houses and improving their lands. The next auction sale will take place on the 6th, 7th and 8th of April, as advertised, and special trains will be run on that occasion as before.

COMMON COUNCIL PROCEEDINGS.

THURSDAY, March 18th.

The Council met at the usual hour, with Mayor Beaudry in the chair, and present, Councilmen Huber, Lichtenberger, Setello, Workman, Carmona, Robinson, Leahy and Wolf-skill.

The minutes of previous meeting were read and approved.

The Mayor reported the collection of \$25 for fines with Treasurer's receipt for same. He also returned the bonds of 29 saloon-keepers in the sum of \$2,000 each, as required by ordinance. The communication was received and placed on file.

The Mayor presented a communication bringing charges against the police for insubordination in taking their prisoners before a Justice of the Peace instead of arraigning them in the Mayor's Court, as required by resolution of the Council. By this means the city is deprived of a considerable revenue in the fines paid by criminals.

Communication placed on file, and ordered that any policeman who hereafter brings an arrested party before a Justice of the Peace instead of the Mayor, be discharged from the force. The Board of Public Works presented a report recommending that Fort street be graded between Temple and First streets. Same action.

The Committee on Lands reported favorably on the petition of Pio Pico for a quit-claim deed to certain property, under certain conditions. Referred back to the committee for a more explicit map of the property in question.

The Committee on Sewers reported that they had engaged Mr. Hansen to make surveys for the extension of the main sewer, and requested that that gentleman be allowed to make explanations to the Council.

Mr. Hansen then appeared and presented a map showing his surveys and levels. He favored the extension of the sewer to the river bed, if that route could be found practicable upon future surveys.

On motion, Mr. Hansen was employed to survey a route for the main sewer to a point on the river near the Southern boundary of the city, and ascertain if the line is practicable.

The City Attorney reported that he had dismissed the suit of the city vs. the Spring and Sixth Street Railway without prejudice according to instructions. Placed on file.

A communication was presented by the Health Officer, stating that the Commercial street sewer discharged into zanja No. 3, and asking that instructions be given him in the premises. The communication was placed on file and the Health Officer instructed to have the Commercial street sewer closed if found a nuisance.

On motion, the Health Officer was instructed to make a general inspection of the city and have all nuisances abated.

An ordinance was submitted granting an extension of time to the Spring and Sixth Street Railway for the completion of their line. Adopted.

A resolution was presented fixing the grade of Olive street from Second to Third at what is known as the compromise grade. Adopted.

The assessment for the construction of the City and County High street was submitted and adopted; also ordered published.

Notices of intention for the grading of Fort street from Temple to First and Second to Third, with specifications for the same, were submitted, and a lively discussion was elicited regarding the question of plank or gravel sidewalks.

A vote was finally taken on a motion to have the sidewalks constructed of plank, and lost by the following vote:

Ayes: Carmona, Wolfskill and Robinson. Noes: Workman, Campbell, Leahy, Huber, Lichtenberger and Setello.

The notice and specifications were referred back to the Board of Public Works for modification.

A petition was presented by property owners asking that the lines of Figueroa street, between Adams and Washington, be fixed in accordance with the survey of Capt. Moore.

A resolution was also submitted declaring the width of Figueroa street, between Adams and Washington, to be 60 feet, width of sidewalk, etc., between Adams and Washington streets.

A petition was presented by the Spring and Sixth Street Railroad Company, asking for the privilege of changing the line of their road between Temple and Commercial streets so as to secure more uniform curves; also, to place the road on established grade. Mr. Workman moved that the petition be granted, provided the change be made under the supervision and direction of the City Surveyor. Motion carried.

A petition from property-owners on Macy street was presented, asking that the course of said street as formerly surveyed be abandoned and a new line established. Referred to the Board of Public Works.

The question of the Main street sewer was referred to the Board of Public Works in conjunction with the City Surveyor to report a feasible plan for the same.

A petition from the Sisters of Charity was received, asking for a deed to certain property in lieu of a tract originally granted for hospital purposes by the city, but since disposed of to other parties.

EVENING SESSION

A communication from the City Assessor was presented, representing that there are three streets in the city known as Turner street, also that many streets have no name and that the portion of Main street known as Upper Main street still bears the official title of *La Calle de Trinidad*. The communication was placed on file and the matter referred to a committee consisting of Messrs. Huber, Leahy and Campbell.

On motion, the City Attorney was instructed to draft a resolution providing that no new street be opened in the city hereafter less than 60 feet in width.

The City Assessor presented a communication asking that two amendments be made to a proposed ordinance, 1st, that the fiscal year commence on the 1st of April and end on the 1st of August. 2d, that the City Assessor be required to make all assessments in that time. Placed on file and the City Attorney instructed to draft an ordinance accordingly.

A petition was presented by L. C. Goodman and R. C. Johnson, asking that changes be made at the point where zanjas Nos. 1 and 2 divide. Referred to the Committee on Zanjas with power to have the necessary improvements made.

A petition was presented by Antonio

Palmieri, representing that his distillery, located opposite the property of the Sisters of Charity, is within the line of Alameda street, and requesting that the same be appraised and condemned at once, so that the building can be removed before the distilling season commences.

Col. Stanford addressed the Council, advocating the petition.

A special committee was appointed, consisting of Messrs. Workman, Robinson, Wolfskill, Carmona and Teed, to investigate the petition.

A petition was presented by J. T. Lanfranco, asking an extension of two months for the construction of sidewalk in front of his property on the corner of Spring and Court streets. Petition denied.

A petition was presented by property owners, asking that a bridge be constructed across zanja on Jefferson street, near Main. Referred to the Board of Public Works, with instructions to have bridge constructed as prayed for.

The following bids were then submitted for drawing skeleton maps of the city, as advertised for: L. Seebold, \$2,500; Moore & Kelleher, \$1,370; Geo. Hansen, \$3,000; H. J. Stevenson, \$940.

The bids were referred to the Committee on Finance.

Thos. Manning presented a communication, stating that zanja No. 7 is nearly repaired and will be ready for use on Tuesday of next week. He also requested that the Zanjero be instructed to stop certain parties from entering said zanja, as they are now doing. Referred to the Committee on Zanjas.

A petition was presented by property owners, asking that Spring street from Fourth to Fifth be graded and improved. Referred to the Board of Public Works.

A petition was presented by Francisco Nido asking for a quit-claim deed to certain property in his possession. A similar petition was presented by Messrs. Bouton and Temple. Both were referred to the Committee on Lands.

The regular business having been concluded, the usual onslaught was made on matters and "things" when our reporter fled.

Hope's Hallucinations.

Two days since we noted the fact that we were in possession of an official list of the drawings in the late Louisville Lottery, which was open to the inspection of all interested parties. We will admit that our apparent generosity was not unsullied by a grain of selfishness, for we expected some holder of a lucky ticket to come in, find that he had drawn twenty or thirty thousand dollars and, in the fulness of his heart hand us over a thousand for a souvenir. But although some fifty ticket-holders have called upon us since the publication of the notice we have yet to acknowledge the first requisite—not even a bit, a "smile" or cigar has fallen to our lot.

It was the same scene enacted over with each new inquirer: enter jubilant and hopeful; call for the list smilingly; examine it earnestly, perhaps nervously; fold it up gloomily; hand it back despondingly. "Nothing!" The inquirer at this juncture invariably launched out his wretched ticket with a flourish, and smiling grimly said, "Want it?" That was all the remuneration we received, and we have learned by sad experience not to put our trust in lotteries or lottery-holders. All parties are now notified that the "official list" has been burned up.

CITY AND COUNTY OFFICIAL PAPER.

FRIDAY, MARCH 19, 1875.

"ONLY A FARMER'S DAUGHTER."

"She's only a farmer's daughter,"

A stylish lady said,

While she glanced at her handsome eye

And a toss of her haughty head.

She smiled and flounced and furbelowed

In the very latest style;

Her hair was wound in curls and curls,

And her train something less than a mile.

Her hands, that sparkled with many a ring,

Were shapely and fair to view—

As well as dressed in her useful work

Were they ever allowed to do.

To hear her talk of the "lower class,"

Of their sins against propriety;

Of her father and of "country girls,"

And her horror of "mixed society!"

One would think that among her ancestry

She numbered at least an Earl—

(Her father was once a carpenter

And her mother a factory girl.)

They say she is brilliant and beautiful;

Will not their words deny,

But that the farmer's daughter

Is fairer far to my eye.

She is not in the height of fashion,

But is very becomingly dressed,

With bonnet enough for comfort,

And they look as if made of the best.

Mirth and innocent happiness

Of her blue eyes shine;

Her hair is unadorned by curls and curls

And she wears it by right divine.

No mother told in the kitchen for her,

While she on the sofa sits,

Novel in hand, dressed in her best,

Receiving her morning calls.

A share in the heat and burden of life

She willingly, cheerfully takes;

And that as a lover, in that happy home,

A pleasure of labor makes.

And, though you may smile at this curious

fact,

I have seen her with hoe in her hand,

When she planted the corn or waged war

on the weeds.

When her help was scarce in the land,

And her flowers—next Summer you'll see

them yourself.

As you ride past the farm on the prairie,

And mark the home, covered with roses and

grapes,

The work of some Martha or Mary.

And I'm sure you will say, spite the verdict

of those

who live out in fashion's gay whirl,

That "only a farmer's daughter" means

only a sensible girl!

Change of Text Books.

In the case of the State of California

ex rel. John Bellmer vs. the State

Board of Education in the Sixth Ju-

dicial District, county of Sacramento,

a judgment was to-day entered pro

forma, and by consent of council, in

order to get the case quickly before

the Supreme Court, as the questions it

involves are very important and of

public interest. The real merits of

the case will therefore be determined

by the Supreme Court of the State.

This case relates to the change of text-

books in the public schools, which was

recently ordered by the State Board of

Education.—S. F. Bulletin.

The two Indians, Sordo and Jose

Acacia, who were sentenced to be

hanged on the 19th instant, at San

Diego, have been reprieved by Gov.

Pacheco, until June 18th. Jose made

a confession, acknowledging connec-

tion with other crimes and implicated

others. The reprieve has been granted

upon request of the District Attorney,

with the object of using them to get a

clue concerning other mysterious

crimes which have been committed in

that county.

Grading has commenced on Yerrington,

Bliss & Co.'s narrow gauge rail-

road, from Lake Tahoe to the head of

Clear Creek, on the summit of the

Sierras. This road will be eight miles

in length, and will be used in the

transportation of lumber and timber

from the mills of the company to their

large flume at the head of Clear creek.

They have found a very favorable

route for the road. A tunnel, 500 feet

in length, is the heaviest piece of

work required. This will be the only

tunnel.

Last Saturday there was forwarded

from Sacramento to Vaca Station a
